

Founded in 2000, LONGi is committed to being the world's the most compelling solar technology company, focusing on customer-driven value creation for full scenario energy transformation.

Under its mission of "making the best of solar energy to build a green world" and brand positioning of "the most trusted, reliable solar company that blazes the trail for green technology", LONGi has dedicated itself to technology innovation and established five business sectors, covering monocrystalline wafers, cells and modules, distributed generation solar solutions, utility plant system solutions, and hydrogen equipment solutions. The company has honed its capabilities to provide green energy and has also embraced green hydrogen products and solutions to support global zero carbon development.
